Plaques

Plaque Mounting is an attractive alternative to framing and a unique way to display your photograph.

Our Thin Plaques arrive ready for display. Printed on Fuji lustre and pearl, heat bound to Masonite substrate, laminated, bevel edged and black foiled.

Our Standard Plaque is finished with your choice of laminate, mounted to 3/8" MDF board, foil-edged and slot routed on the back ready to hang.

Our Deep Profile Plaque is similar in look to the Standard but with a much deeper 1 1/2" profile.

Metal Prints

The process involves infusing dye directly into a coated aluminum substrate. The end result is a vibrant print with great detail and resolution.

Choosing an aluminum frame or strip option means your images will arrive ready for hanging and display.

Metal Size	Hanger strips/frame
5x5	\$32.60
5x7	\$40.40

Have your favourite image or logo placed on one of our apparel items. We use a Direct-to-film transfer which allows for high detail and unlimited color.

Desktop App

The desktop app for Pixportal is a simple and convenient way to place orders. Download the installer and you will have access to all Pixportal has to offer, with the convenience of not going through the website.

Installation

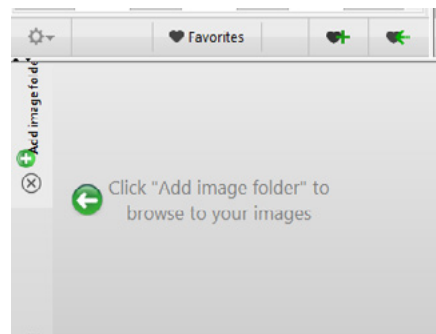

Step 1. Download the installer from the link below, choose which operating system you have.

Step 2. Double click on the installer in your downloads folder to begin installation. On PC you will get a prompt asking for permission to install, choose yes.

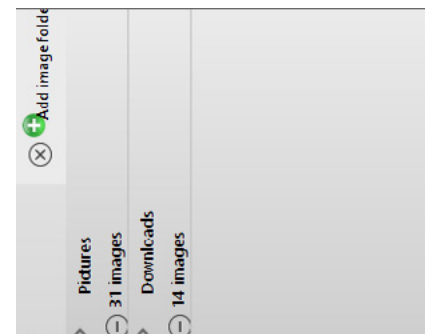

Step 3. Once installed, double click on the Pixportal app on the desktop to begin. If it is not there go to your start menu or finder and search Pixportal.

Items are sorted into categories that you can choose from.

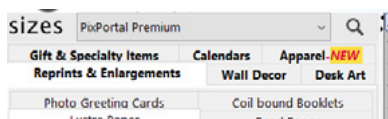

Choose a folder for your images by selecting the green plus button.

You can add multiple folders, and close a folder stack by selecting the arrow associated to that folder. You can remove the folder with the minus button.

Drag-and-drop your images into place.

You can also choose from different categories from the left tabs.
