Plaque Mounting is an attractive alternative to framing and a unique way to display your photograph.

Our **Standard Plaque** is finished with your choice of laminate, mounted to 3/8" MDF board, foil-edged and slot routed on the back ready to hang.

Our **Deep Profile Plaque** is similar in look to the Standard but with a much deeper 1 1/2" profile.

The process involves infusing dye directly into a coated aluminum substrate. The end result is a vibrant print with great detail and resolution. Choosing an aluminum frame or strip option means your images will arrive ready for hanging and display.
